SMART VISION
SOLUTIONS
حلول الرؤية الذكية

Company Overview

Smart Vision Solutions is a Saudi technology company delivering integrated, future-ready solutions that help organizations improve operational efficiency, visibility, security, and digital performance.

- **Technology Expertise:** Leveraging deep industry knowledge to solve complex challenges.
- **Strategic Partnerships:** Collaborating with global leaders to bring cutting-edge tools to the Saudi market.
- **Practical Implementation:** Ensuring seamless integration and measurable results tailored to your specific business requirements.

SMART VISION
SOLUTIONS
حلول الرؤية الذكية

About Smart Vision Solutions

We specialize in the design, delivery, and support of integrated technology solutions tailored for government entities, enterprises, commercial organizations, and residential facilities.

- **Our Core Expertise:** Delivering comprehensive, end-to-end technology support.
- **Integrated Ecosystem:** We unify advanced technologies into a single, seamless operational interface:
  - Artificial Intelligence (AI) & IoT Solutions
  - Software Platforms
  - Low-Current Systems & Security Technologies
  - Smart Automation & Professional Audiovisual (AV) Solutions

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Our Vision, Mission & Values

Vision

To be a trusted regional partner for intelligent, scalable, and high-impact technology solutions.

Mission

To enable our clients' digital transformation through reliable technology, expert implementation, and long-term support.

Our Values

- **Innovation:** Fostering creative approaches to complex problems.
- **Quality:** Maintaining excellence in every deliverable.
- **Reliability:** Consistently delivering dependable results.
- **Partnership:** Building strong, collaborative relationships.
- **Customer Success:** Prioritizing the growth and achievement of our clients.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

What We Do

Our Strategic Focus

- **Software Development & Digital Platforms**

  Leveraging machine learning to provide actionable business insights.

- **Internet of Things (IoT) & Smart Technologies**

  Connecting hardware to the digital ecosystem for enhanced monitoring.

- **Low-Current, Security & Protection Systems**

  Implementing critical infrastructure for physical safety and asset integrity.

- **Tracking, Automation & Operational Visibility**

  Providing real-time oversight of assets and automated workflows.

- **Audiovisual & Smart Workplace Solutions**

  Designing integrated, next-generation collaborative environments.

SMART VISION
SOLUTIONS
حلول الرؤية الذكية

Our Delivery Approach

We work closely with our clients to bridge the gap between initial requirements and sustainable outcomes:

- **Consult:** Deep discovery to align with operational objectives.
- **Design:** Crafting technical solutions with future scalability in mind.
- **Implement:** Executing development with a multidisciplinary approach.
- **Integrate:** Ensuring seamless compatibility with existing infrastructure.
- **Support:** Providing ongoing assistance to guarantee long-term value.

JAAMM TECH

Software Development, AI, Integration & Automation

- **Custom AI Solutions**
  Designing tailored AI models and intelligent tools for specific business needs.
- **Artificial Intelligence**
  Implementing intelligent models for data-driven decision-making.
- **Software Development**
  Building custom, scalable digital solutions tailored to your needs.
- **System Integration**
  Connecting disparate platforms for seamless, high-performance operation.
- **Business Automation**
  Streamlining workflows to maximize productivity and efficiency.
- **Data Analytics & Dashboards**
  Turning operational data into clear insights, reports, and actionable dashboards.
- **Cloud & Platform Development**
  Creating secure, scalable web and cloud-based platforms that support business growth.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

WM SYSTEMS

WM SYSTEMS

WM Systems is a European technology provider specializing in industrial communication devices, smart metering solutions, and IoT connectivity for utilities and infrastructure environments.

Core Capabilities:

- **Secure Remote Data Collection**

  Reliable telemetry for energy, water, and gas sectors.

- **Monitoring & Communication**

  Real-time visibility into infrastructure health, industrial automation, and building systems.

- **Portfolio Focus:**
  - Smart Metering
  - Industrial IoT
  - Data Loggers
  - M2M Connectivity

SMART VISION SOLUTIONS
حلول الرؤية الذكية

TELTONIKA

TELTONIKA NETWORKS

Teltonika Networks is a global leader in professional networking equipment, dedicated to empowering industrial and enterprise IoT applications with secure, reliable connectivity.

Our Portfolio:

- **Industrial Connectivity**
  High-performance routers, gateways, and switches engineered for mission-critical reliability.
- **Remote Management**
  Advanced platforms like RMS for centralized monitoring and configuration.
- **Secure Solutions**
  Hardware designed to provide robust security in challenging operational environments.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

H3C

Digital and AI Infrastructure Solutions

- **AI Infrastructure**
  High-performance foundation for advanced AI workloads and machine learning models.
- **Networking**
  Robust connectivity solutions designed for speed, reliability, and scale.
- **Servers**
  Enterprise-grade compute systems engineered for reliable, scalable performance.
- **Storage**
  Secure, scalable storage built for high availability and rapid data access.
- **Cybersecurity**
  Advanced security measures to protect digital assets and infrastructure integrity.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

UNV

UNV is a global AIoT solutions provider specializing in intelligent video surveillance, security, display, and control technologies. Its solutions combine artificial intelligence, IoT, and advanced video technologies to enhance security, operational visibility, and intelligent management across diverse environments.

Key Focus Areas:

- AI Video Surveillance
- IP Cameras
- NVR & Video Management
- Smart Security Solutions

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Himel

HIMEL

Himel is a global provider of reliable and cost-effective electrical products for residential, commercial, and industrial applications.

Core Portfolio:

Our solutions are designed to support safe and efficient power management:

- Low-voltage distribution
- Electrical protection
- Industrial control & automation
- Metering & smart electrical solutions

SMART VISION SOLUTIONS
حلول الرؤية الذكية

CHINT
Empower the World

CHINT

CHINT is a global leader in providing end-to-end smart energy solutions, specializing in:

- **Power Ecosystems**

  Comprehensive systems for power generation, transmission, and distribution.

- **Energy Management**

  Advanced technologies for efficient consumption, automation, and electrical infrastructure.

- **Diverse Applications**

  Supporting utilities, data centers, industrial facilities, and renewable energy projects.

Key Focus Areas:

- Power Distribution
- Smart Energy
- Industrial Automation
- Electrical Metering

SMART VISION SOLUTIONS
حلول الرؤية الذكية

V-COUNT

V-COUNT

V-Count is a global leader in AI-powered visitor analytics, transforming physical footfall into data-driven strategy for retail, commercial, and public sectors.

Core Capabilities:

- **Actionable Insights**
  Convert raw movement data into performance metrics.
- **Customer Experience**
  Improve service delivery through crowd management.
- **Operational Efficiency**
  Optimize staffing and operational workflows.

Key Focus Areas:

- AI People Counting
- Retail Analytics
- Queue Management
- Occupancy Monitoring

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Kalkitech

KALKITECH

Bridging the gap between field assets, operational systems, and enterprise platforms.

- **Asset Connectivity**

  Seamless integration of metering systems and field assets with cloud-based analytics.

- **Operational Efficiency**

  Real-time monitoring and control for smarter, more responsive energy operations.

- **IT/OT Convergence**

  Unifying operational technology with enterprise IT ecosystems.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

BRIGHT TECHNOLOGY

BRIGHT TECHNOLOGY

Bright Technology is a leading provider in Saudi Arabia, offering a comprehensive portfolio of telecommunications, enterprise IT, networking, and electrical solutions through partnerships with top-tier international technology vendors.

Our Capabilities:

We provide end-to-end support for your organization:

- **Product Supply:** Sourcing state-of-the-art technology hardware and software.
- **Solution Design:** Custom architectural planning for complex IT and electrical environments.
- **Implementation:** Professional deployment and system integration.
- **Technical Services:** Ongoing operational support and maintenance.

Key Focus Areas:

- ICT & Networking
- Electrical Solutions
- Security & Life Safety
- Solar & Power Management

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Semikolen TECHNOLOGIES

SEMIKOLEN TECHNOLOGIES

With over 13 years of industry expertise, Semikolen Technologies empowers organizations to build secure, efficient, and scalable digital foundations.

Core Competencies:

- Strategic IT Consulting

  Aligning technology roadmaps with business objectives.

- Managed Services

  Reliable support to keep critical operations running smoothly.

- Cybersecurity

  Protecting digital assets through advanced security protocols.

- Cloud Computing

  Enabling agility and scalability through modern cloud infrastructure.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

AI Solutions & Intelligent Automation

Smart Vision Solutions delivers practical artificial intelligence solutions that help organizations automate processes, analyze data, and make faster, more informed decisions.

By combining intelligent automation, machine learning, and integrated data platforms, we transform operational data into real-time insights and measurable business value.

Key Focus Areas:

- Artificial Intelligence
- Intelligent Automation
- Data Analytics
- Decision Support

SMART VISION SOLUTIONS
حلول الرؤية الذكية

AI Capabilities & Use Cases

- **AI Video Intelligence**

  Analyzing live streams and video archives to generate alerts, searchable metadata, transcripts, and actionable insights.

- **Customer Service AI & Call Analytics**

  Transcribing calls, analyzing customer sentiment, identifying call reasons, and evaluating service performance.

- **Intelligent Document & Data Processing**

  Extracting, classifying, and organizing information from documents and business data.

- **Predictive Insights & Automated Alerts**

  Extracting, classifying, and organizing information from documents and business data.

- **AI Infrastructure & Edge Computing**

  Enabling secure and scalable AI processing across cloud, on-premises, and edge environments.

SMART VISION
SOLUTIONS
حلول الرؤية الذكية

Software, ERP & System Integration Solutions

Smart Vision Solutions designs and delivers tailored software platforms that unify business operations, data, and decision-making within one connected digital environment.

- **ERP Systems**

  Implementing robust resource planning to centralize business data.

- **Custom Software Development**

  Building scalable web and mobile applications tailored to unique operational requirements.

- **API Integration**

  Connecting disparate systems to ensure seamless data flow and process automation.

- **Business Intelligence**

  Developing operational dashboards to improve visibility and strategic decision-making.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Smart Retail, RFID & ESL Solutions

Driving operational efficiency and inventory visibility through integrated technology.

- **Electronic Shelf Labels (ESL)**
  Enables real-time, dynamic pricing updates and operational agility.
- **RFID Identification**
  Provides granular, real-time inventory tracking and improved stock accuracy.
- **Centralized Management**
  Integrates disparate systems into a unified platform for seamless data flow and process control.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Electronic Shelf Labels (ESL)

Modernizing retail with digital, real-time price management.

- **Real-Time Updates**

  Instantaneous synchronization of prices and product info across all retail locations.

- **Accurate Pricing**

  Eliminates human error and pricing discrepancies between shelves and POS systems.

- **Digital Promotions**

  Enables agile marketing and immediate sales activation directly at the shelf edge.

- **Centralized Management**

  Provides total control of all store displays via a single, cloud-based platform.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

ESL Business Value

Driving operational excellence and customer satisfaction through electronic shelf labeling.

- **Dynamic Price Management**
  Instantly update thousands of prices and promotions in minutes.
- **Operational Efficiency**
  Eliminate manual labor and reduce human error in pricing updates.
- **Customer Trust**
  Boost confidence with consistently accurate shelf information.
- **Enhanced Communication**
  Display rich product details, promotions, and inventory alerts.
- **System Integration**
  Seamlessly sync with existing inventory and retail management software.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

RFID Technology & Operational Benefits

RFID uses electronic tags and readers to identify, track, and manage items automatically through radio-frequency communication.

Key Advantages:

- **Contactless ID**
  Operates without direct line-of-sight, unlike barcodes.
- **Operational Efficiency**
  Eliminates manual entry and speeds up data collection.
- **Increased Visibility**
  Provides real-time tracking across the supply chain.
- **Higher Accuracy**
  Significantly improves inventory precision and reduces human error.
- **Enhanced Security**
  Enables better monitoring and protection of assets.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

RFID Applications & ERP Integration

Diverse Operational Applications

- **Retail & Supermarkets:** Streamlining checkout and inventory.
- **Warehousing & Logistics:** Automated tracking and movement logs.
- **Asset Tracking:** Real-time visibility of company equipment.
- **Inventory Management:** Precise, automated stock counts.
- **Healthcare:** Patient identification and clinical item tracking.
- **Access Control:** Secure entry and authentication.

ERP Integration Power

- **Real-Time Synchronization**

  Updates inventory, stock levels, and purchase orders automatically.

- **Business Control**

  Reduces manual labor and minimizes human error.

- **System Compatibility**

  Seamless integration with SAP, Oracle, Microsoft Dynamics 365, .NET systems, and custom ERP applications.

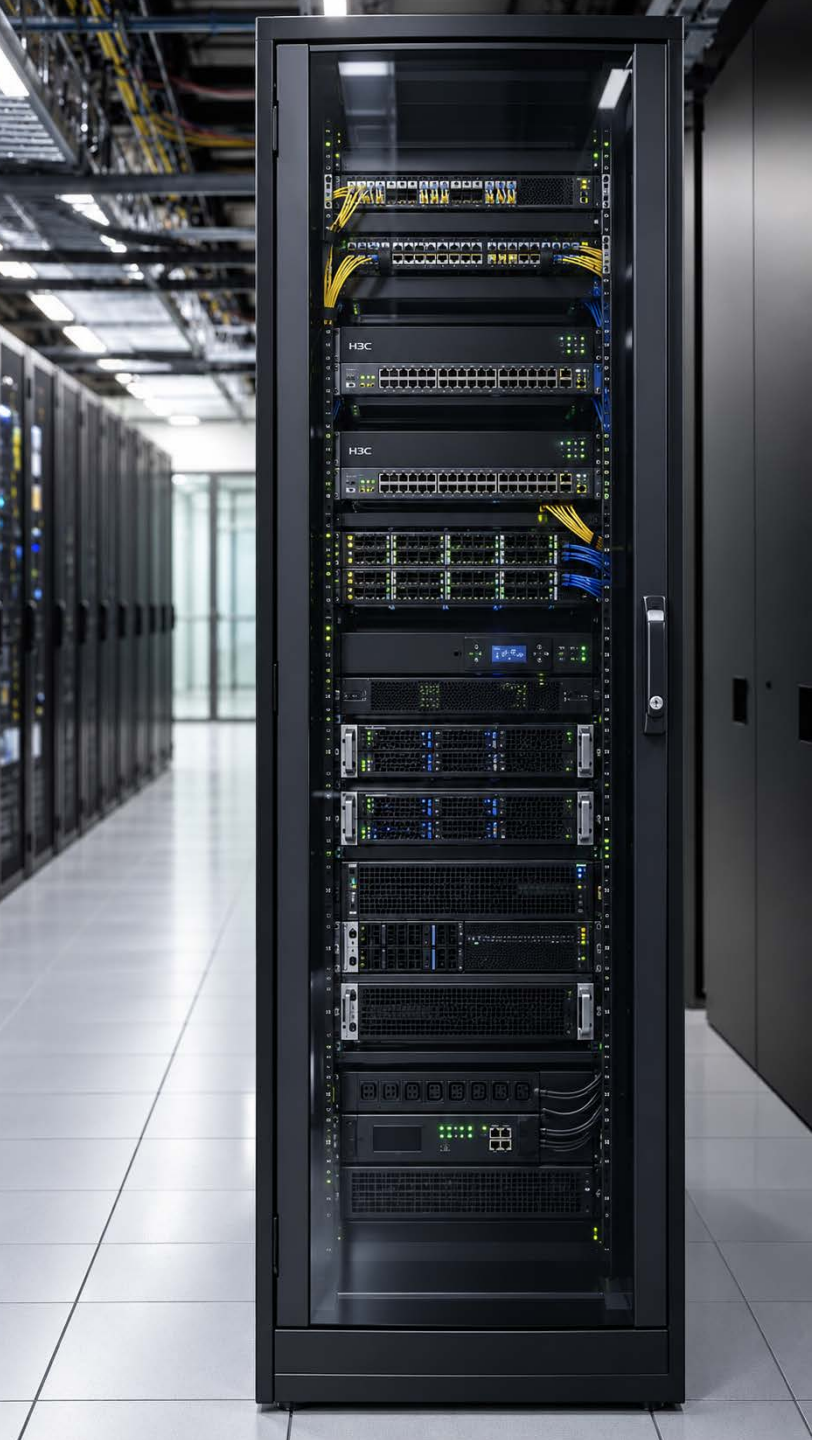

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Smart Metering & Energy Management Solutions

Smart Vision Solutions enables organizations to monitor, manage, and optimize their energy and utility consumption through connected smart-metering solutions. Our integrated platforms collect real-time data from electricity, water, gas, and other utility meters, providing clear visibility into usage, performance, and potential inefficiencies.

Core Capabilities:

- **Smart Metering**
  Seamless hardware integration.
- **Remote Data Collection**
  Automated, real-time reporting.
- **Energy Monitoring**
  Continuous usage oversight.
- **Utility Analytics**
  Actionable insights to drive efficiency.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Advanced Networking & IT Infrastructure Solutions

Smart Vision Solutions designs and implements secure, high-performance, and scalable IT infrastructure that supports reliable business operations and digital growth.

- **Enterprise Networking**
  Optimizing connectivity and traffic flow.
- **Data Centers**
  Building resilient, high-availability environments.
- **Servers & Storage**
  Delivering scalable compute and data management.
- **Cybersecurity**
  Protecting assets with integrated security protocols.
- **Centralized Management**
  Providing streamlined oversight for modern organizations.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Monitoring, Asset & Vehicle Tracking & Management Solutions

Smart Vision Solutions provides real-time monitoring and tracking solutions that give organizations full visibility over their valuable assets, vehicles, and field operations. Our platforms combine GPS, IoT connectivity, and centralized dashboards to monitor location, movement, utilization, and operational status:

- **Asset Tracking**
  Monitor location and usage of critical hardware.
- **Fleet Management**
  Enhance driver safety and vehicle maintenance.
- **Real-Time Monitoring**
  Instant updates on field operations.
- **Operational Analytics**
  Data-driven insights for resource management.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Low-Current, Security & Electrical Control Solutions

Smart Vision Solutions delivers integrated systems that protect people, assets, and facilities while improving operational control.

- **Video Surveillance**
  Advanced monitoring for comprehensive site visibility.
- **Access Control**
  Secure entry and identity management solutions.
- **Intrusion Detection**
  Real-time threat identification and alerting.
- **Fire & Life Safety**
  Automated systems for emergency response and compliance.
- **Smart Building Controls**
  Intelligent management of facility infrastructure.
- **Electrical Automation**
  Reliable and scalable environmental control.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Engineering, Supply & Installation Services

We provide comprehensive solutions for MEP systems and integrated technology projects:

- **Engineering**

  Precision design and technical planning tailored to facility requirements.

- **Supply**

  Procurement of high-quality components and reliable technology systems.

- **Installation**

  Expert site implementation and quality-controlled system setup.

- **Project Delivery**

  Streamlined management across commercial, residential, and industrial sectors.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

System Integration & Automation Services

- **Unified Architecture**

  We connect disparate systems, platforms, and devices into one cohesive, integrated environment.

- **Enhanced Visibility**

  Gain real-time insights across your entire technological footprint through a unified interface.

- **Centralized Control**

  Streamline management of complex workflows from a single, intuitive dashboard.

- **Operational Efficiency**

  Reduce manual intervention and eliminate data silos to optimize overall performance and ROI.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Fire Protection & Life-Safety Systems

We provide comprehensive, end-to-end solutions designed to safeguard your environment through every stage of the lifecycle:

- **Design & Engineering**

  Customized system planning tailored to facility layouts and risk profiles.

- **Supply**

  Sourcing high-performance, industry-certified detection and suppression equipment.

- **Installation**

  Expert deployment and integration of fire alarms and life-safety hardware.

- **Maintenance**

  Ongoing inspection, testing, and servicing to ensure peak operational reliability and life-cycle performance.

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Operation, Maintenance & Technical Support

Ensuring continuous reliability through proactive and reactive service models.

- **Preventive Maintenance:** Scheduled inspections and routine servicing to anticipate and mitigate system failures.
- **Corrective Maintenance:** Rapid response protocols to resolve technical issues and restore functionality promptly.
- **System Health Checks:** Comprehensive assessments of hardware and software components to ensure optimal performance.
- **Performance Monitoring:** Real-time data tracking to identify trends, monitor resource utilization, and prevent bottlenecks.
- **Responsive Technical Support:** Dedicated assistance ensuring minimal downtime and expert guidance for all installed systems.

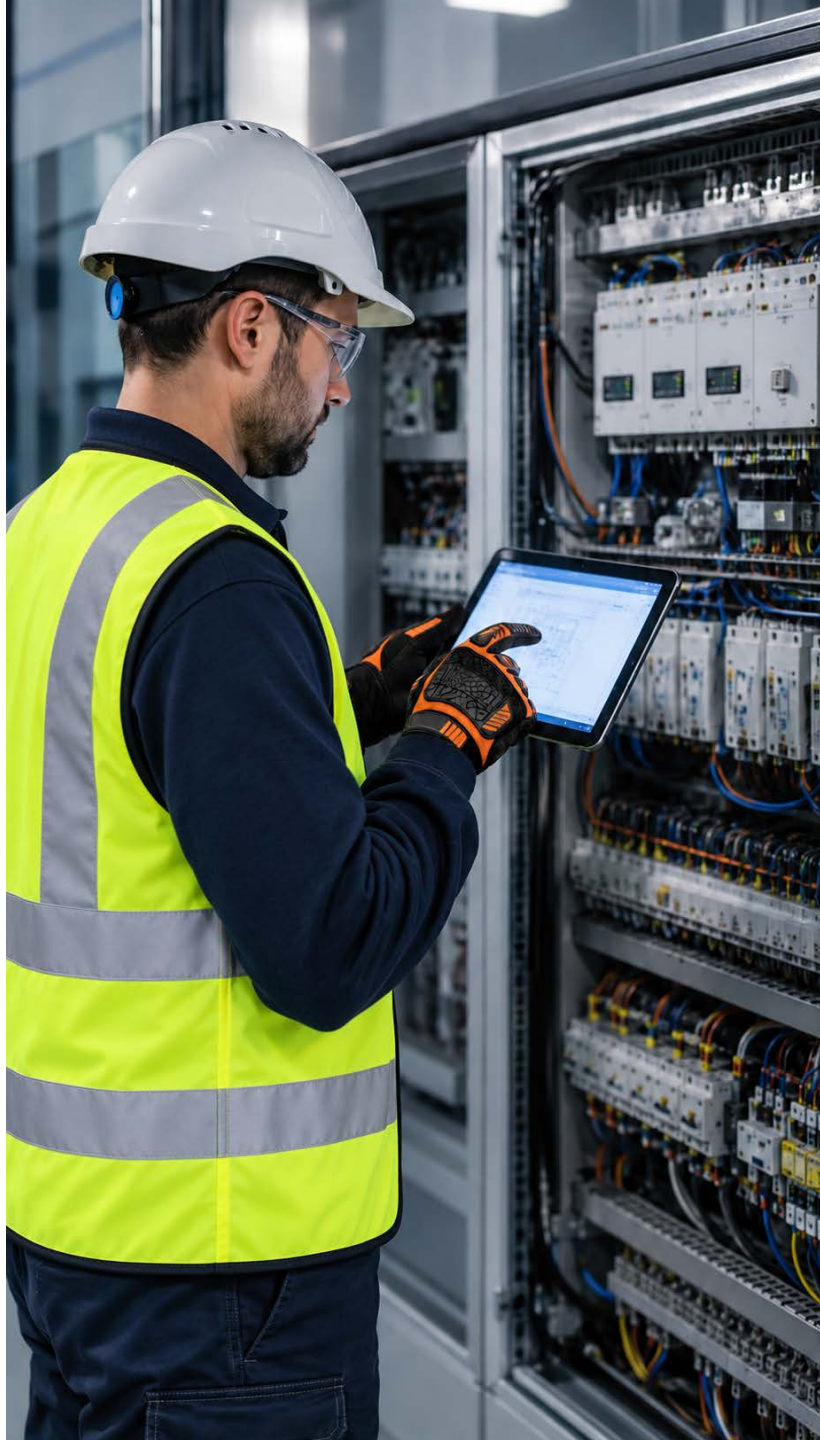

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Testing, Commissioning & Handover

Ensuring operational readiness and long-term reliability.

- **Comprehensive Verification:** Executing rigorous testing protocols to ensure every system meets performance, safety, and functionality benchmarks.
- **System Integration:** Validation of cross-system interoperability to ensure seamless operation within the integrated environment.
- **Final Documentation:** Delivery of complete 'as-built' records, O&M manuals, and technical certificates.
- **User Empowerment:** Structured orientation sessions and hands-on training to ensure the client is fully prepared for day-one operations.
- **Seamless Transition:** A managed handover process ensuring a smooth shift from project completion to live, reliable performance.

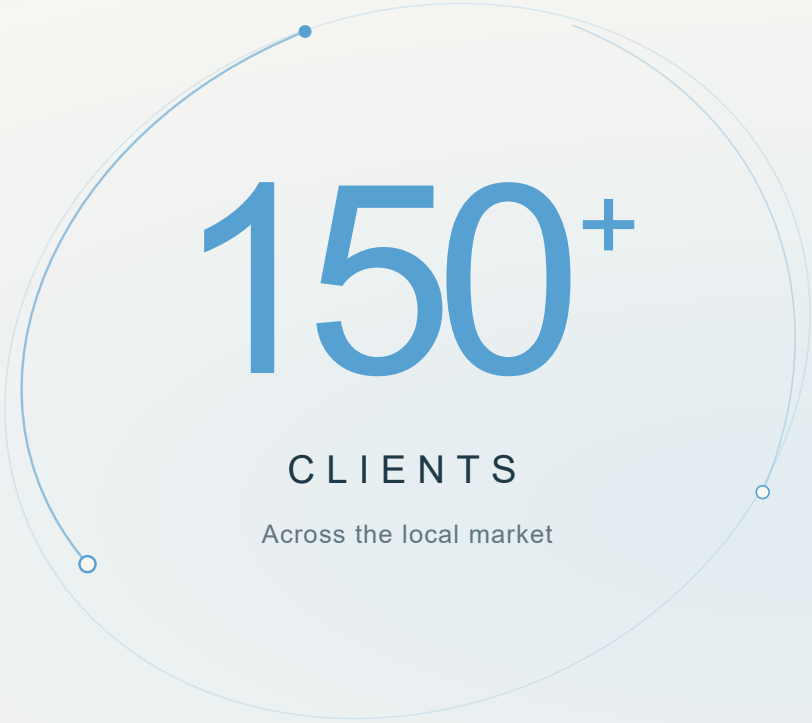

SMART VISION SOLUTIONS
حلول الرؤية الذكية

Built on trust.
Focused on you.

We serve clients across the local market with technical services and dedicated support, bringing the latest advances in technology to their operations.

Our commitment is to lasting client satisfaction—through consistent quality, dependable support, and long-term continuity of service.
